What sets MNL Guarantee Pro apart?

MNL Guarantee Pro can help protect your retirement savings, while also offering the potential for higher interest rates. You have the ability to take some withdrawals penalty-free, and after the initial three, five, or seven-year guarantee period you get to choose to renew your annuity at a new guaranteed interest rate either at a three, five, or seven-year period, or you can choose to start drawing income from the annuity.

We know the choices you make as you prepare for retirement may seem overwhelming, but you can count on the expertise of your financial professional and Midland National to support you every step of the way.

Why choose Midland National®?

In good times and in bad, over the last 30 years, we've remained one of the highest rated insurance companies in the U.S., rated A+ (Superior) by A.M. Best.®

The more you set aside, the better your rate

A premium of \$20,000 or more is required for this single premium product, whether qualified or non-qualified.

For premium amounts of \$100,000 or more, you will receive a higher interest rate.

Low band: Less than \$100,000 and

High band: \$100,000 or more.

Provide a lasting legacy

Your beneficiaries will get the accumulation value of your annuity as a death benefit – either in an immediate lump sum or in installments. And, because annuities may avoid probate, they may not have to wait.

Please consult with and rely on your own legal or tax advisor and refer to your contract for situations of joint owners and annuitants.

Tax deferral improves growth potential

Your annuity's value grows on a tax-deferred basis, meaning more of it is working for you. Tax-deferred growth means you don't owe taxes until you access funds, allowing more time for growth potential. Work with your tax advisor to find out how this might work for you.

Under current law, annuities grow tax deferred. An annuity is not required for tax deferral in qualified plans. Annuities may be subject to taxation during the income or withdrawal phase. Please note that neither Midland National, nor any financial professionals acting on its behalf, should be viewed as providing legal, tax or investment advice. Consult with and rely on your own qualified advisor.

Issue ages (may vary by state)

Available to issue ages 0-90 (qualified and non-qualified)

For issue ages 0-17, a Uniform Gift to Minors Act (UGMA) or Uniform Transfers to Minors Act (UTMA) custodial account must be established.

Options for accessing funds

MNL Guarantee Pro offers a variety of features to make it easier to access funds on your schedule.

Renewal options available to you when your guarantee period is up

When your annuity reaches the end of your initial guarantee period, you're able to renew your annuity at a new guaranteed interest rate. When you renew, you can choose to enter a three, five, or seven-year guarantee period, provided that it does not extend beyond the contract's maturity date. You will have a 30-day window to renew your guarantee period, elect a payout option or withdraw the accumulation value. If no election is made, we'll automatically renew your annuity for the original guarantee period as described in your contract. If this guarantee period would extend beyond the maturity value of the contract, we'll renew your contract for the longest available guarantee period that would not extend beyond the maturity date of the contract. If all available guarantee periods would extend beyond the maturity date of the contract, we'll credit interest at the minimum guaranteed rate until maturity.

Within this 30-day window, no surrender charges or market value adjustment will apply. After the 30-day window, a new guarantee period, guarantee period interest rate, surrender charge schedule and market value adjustment will apply.

When you start a new guarantee period, the interest rate may differ from the interest rate during your initial guarantee period.

Penalty-free withdrawals

After the first contract anniversary, you may choose to take a penalty-free withdrawal (also known as a penalty-free partial surrender) equal to the interest earned in the prior contract year. If you withdraw more than interest earned in a year, a surrender charge and market value adjustment may apply.

Nursing home confinement waiver

(not available in South Dakota)

After your first contract year, if you become confined to a qualified nursing care facility for 90 consecutive days, you can withdraw 100% of your accumulation value without a surrender charge and without application of a market value adjustment (MVA). You cannot be confined at the time your contract is issued. This rider is automatically included with your annuity at no additional charge. If joint annuitants are named on the annuity, the waiver will apply to the first annuitant who qualifies for the benefit, but not both.

Your annuitization payout options

You can choose to receive annuity payments based on your choice of several annuity options. Once you elect an annuitization option, it cannot be changed and all other rights and benefits under the annuity end. The payment amount and number of payments will be based on your annuity's surrender value* and the annuitization option you choose. See the product disclosure for annuitization options available.

** By current company practice in most states, the Accumulation Value will be used for annuitization calculations if a life option is selected. Any feature offered 'by current company practice' is not a contractual guarantee of this annuity and can be removed or changed at any time.*

Additional product details

Market value adjustment

Your contract also includes an MVA feature, which may decrease or increase your surrender value depending on the change in the market value adjustment external index rate since the start of the term. Due to the mechanics of an MVA, surrender values decrease as the MVA external index rate rises. When the MVA external index rate decreases, the surrender value increases. However, the MVA is limited to the surrender charge or the interest credited to the accumulation value.

See the product disclosure for more information.

Accumulation Value

At issue, your Accumulation Value is equal to your initial premium. Your Accumulation Value grows as interest is credited to your policy and may be reduced if you make withdrawals from your policy.

Surrender value

The surrender value is the amount that is available at the time of surrender. The surrender value is equal to the accumulation value, subject to the market value adjustment, less applicable surrender charges and state premium taxes (where applicable). The minimum surrender value will not be less than 87.5% of all premiums; less any partial surrenders (after market value adjustment or reductions for surrender charges); accumulated at 1%, or otherwise directed by your Contract.

Surrender charges

During the guarantee period, a surrender charge is assessed on any amount withdrawn, whether as a partial or full surrender, that exceeds the penalty-free amount applicable and may result in a loss of premium.

A surrender during each guarantee period could result in a loss of premium. Surrender charge structure may vary by state.

Surrender charge schedule

Contract year	3 year	Contract year	5 year	Contract year	7 year

Special notice regarding the use of a living trust as owner or beneficiary of this annuity.

The use of living trusts in connection with an annuity contract can be a valuable planning mechanism. However, a living trust is not appropriate when mass-produced in connection with the sale of an insurance product. We strongly suggest you seek the advice of your qualified legal advisor concerning the use of a trust with an annuity contract.

Neither Midland National, nor any agents acting on its behalf, should be viewed as providing legal, tax or investment advice. Consult with and rely on a qualified advisor. Under current law, annuities grow tax deferred. Annuities may be subject to taxation during the income or withdrawal phase. The tax-deferred feature is not necessary for a tax-qualified plan. In such instances, you should consider whether other features, such as the death benefit, lifetime annuity payments, and any other features make the Contract appropriate for your needs.

The term financial professional is not intended to imply engagement in an advisory business in which compensation is not related to sales. Financial professionals that are insurance licensed will be paid a commission on the sale of an insurance product.
